STOUGHTON UTILITIES CONTRIBUTES TO ENERGY EFFICIENT LIGHTING PROJECT

Stoughton Utilities Director Bob Kardasz and Energy Services Representative Alicia Rankin presented Bob Dvorak of RHD Plumbing with a \$2,198 incentive check for a lighting upgrade to the RHD Plumbing facility. High efficiency lights were installed in the office and showroom area, garage, and warehouse, effectively conserving electricity throughout the building and reducing the electricity bill. The incentive is part of Stoughton Utility's Efficiency Improvement Incentive program.
