Stoughton High School Student Receives Stoughton Utilities Scholarship

Stoughton Utilities recently named Brigid Schlegel, a local high school senior at Stoughton High School, the recipient of the Stoughton Utilities scholarship for local high school seniors.

Each year Stoughton Utilities awards a \$1,000 scholarship to a high school senior who plans to attend a two-year technical college or a four-year university. Schlegel will attend Carroll College to study Communications and Journalism.

“We believe that providing educational opportunities for promising local students is a sound investment in our community,” said Robert Kardasz, Utilities Director. “We congratulate Brigid on her accomplishments and extend our best wishes for a successful future.”

To be eligible for the scholarship, students or their parents or guardians must be customers of Stoughton Utilities. Scholarship recipients were chosen on a variety of criteria, including

SAT/ACT scores and overall grade-point average, work and volunteer experience, participation in school and community activities, and future career goals.

Stoughton Utilities' scholarship fund is designed to promote awareness of Stoughton's locally owned, not-for-profit utility.
