### **Stoughton Utilities sponsors education performance coming to local elementary schools**

Professional actors from the National Theatre for Children (NTC) will visit local elementary schools this month to perform “The Treasure Trove of Conservation Cove,” an educational play about energy conservation. In addition, teachers will receive digital games and activities that reinforce important concepts and lessons taught during the 25-minute play. All program costs will be covered by a sponsorship from Stoughton Utilities, making this a cost-free resource for the schools.

“Stoughton Utilities has been a proud sponsor of NTC productions for over 10 years. These productions teach students about important energy concepts in a way that really stays with them,” said Brian Hoops, Assistant Utilities Director.

The pirate-themed play follows the adventures of Captain Doorknob who, while on the hunt for the treasure of Conservation Cove, discovers the evil Pirate Pie-rat is wasting the cove’s resources. With the help of student volunteers and a zany cast of characters, Captain Doorknob learns ways to save natural resources and stop Pirate Pie-rat.

Performances are scheduled for:

Fox Prairie Elementary: Thursday, January 25, 2018 at 1:45 p.m.

Kegonsa Elementary: Tuesday, January 25, 2018 at 9:00 a.m.

Sandhill Elementary: Tuesday, January 30, 2018 at 1:30 p.m. and 2:15 p.m.

# # #

Founded in 1886, Stoughton Utilities serves electric customers in Stoughton and the surrounding area; and wastewater and water customers in Stoughton.

### **About National Theatre for Children**

National Theatre for Children (NTC) is an award-winning educational program that uses storytelling to put a fresh spin on learning. NTC provides a number of resources for elementary schools, including theatrical productions, print and digital curriculum, professional development, extracurricular events and volunteers-in-the-schools. NTC has operations in the United States, Australia and New Zealand. To learn more, visit [www.ntccorporate.com](http://www.ntccorporate.com).
